

# Airport Solutions

## Magnetic Immigration e-Gate

During 2006 some 30 countries will implement e-passports endorsed from the ICAO. The ICAO member states can select to use fingerprint or iris recognition. Other biometric technologies are being considered.

Magnetic has designed and installed the first e-Gates 10 years ago and has now installations worldwide.

## Magnetic Pedestrian Access

- Access control for airport and terminal staff
- Automatic self-boarding gates
- Access control for visitor areas
- Terminal one-way gates

## Magnetic Perimeter Protection

- Full height turnstiles
- Traffic barriers
- Automatic parking systems
- Automatic sliding gates
- Road blockers
- Intrusion detection

References of Magnetic Autocontrol include major airports around the world such as:

- Dubai
- Abu Dhabi
- Hong Kong
- Kuala Lumpur
- Frankfurt
- Moscow etc.
